# ATOMIC CLOUD®

# POWERED BY CLOUD DIRECTOR®

**The next evolution of the Atomic Cloud brings a software-defined private offering built entirely upon VMware's vCloud Suite. With self-management and rapid provisioning, The Atomic Cloud powered by Cloud Director is perfectly suited for your private, hybrid, or DR needs.**

## Self-service private cloud designed for security, flexibility, and speed

- Provision and decommission your own virtual machines with templates
- View your configurations and usage in real-time
- Hosted in Atomic Data's SOC 3 attested US-based facilities
- Know and see exactly where your data resides
- Software-defined storage and networking greatly simplifies management
- Maintain and manage your virtual machines as much or as little as you desire

✔ IaaS    ✔ Self Management    ✔ Container Service Extension    ✔ Utilization-based Billing

**The Cloud Verified badge means Atomic Data's services are based on the most complete VMware-based cloud infrastructure technology available, providing compatibility, choice, and control of VMware Cloud Infrastructure.**

vmware CLOUD VERIFIED

vmware® Principal Partner
Cloud Provider

DELL EMC PARTNER GOLD

VEEAM SILVER propartner

## Built on VMware's cutting-edge vCenter Suite and Dell® hyperconverged infrastructure

- vSphere ESXi, the leading enterprise-class type one hypervisor
- Cloud Director provides role-based access to a self service Web console for management, turn-up/turn-down
- NSX providing zero-trust, multi-cloud compatible, software-defined networking with one-click provisioning
- vSAN storage on Dell EMC vSAN Ready Nodes for dramatic savings, rapid deployment and encryption at-rest

**SAFE. SIMPLE. SMART.**
