

HOW WE HELP THE HEALTHCARE INDUSTRY

The healthcare industry is quickly becoming one of the most high-tech dependent business sectors. Healthcare providers and businesses are entrusted with some of the most important information to people—their health data. As a SOC 3[®] attested managed service provider, our security and compliance is second to none. We're also HIPAA compliant, so your PHI data is safe with us.

MERIDIAN BEHAVIORAL HEALTH

Meridian Behavioral Health

Meridian Behavioral Health was founded in 1988 to deliver treatment to individuals suffering from addiction and mental illness. Today, Meridian is one of the leading for-profit behavioral healthcare organizations in the country. Atomic Data provides MPLS connectivity and 24x7 circuit monitoring of the network infrastructure at their 30+ sites. Additionally, Atomic Data manages Meridian's virtual servers and VoIP solution.

presbyterian
homes & services

Presbyterian Homes and Services

Presbyterian Homes and Services has provided freedom and care in its dedication to senior housing and services since 1955. In the beginning of 2015, Presbyterian Homes and Services started utilizing Atomic Data to provide Kaseya management, virtual environments, and network engineering. Recently, Atomic Data completed an implementation of an infrastructure redesign including complete WAN redundancy to all 43 of Presbyterian Homes and Services satellite locations.

KEYSURGICAL

Key Surgical
