Unleash your organization's potential and streamline productivity with Microsoft 365 - all with simplified service & billing through Atomic Data, a local Microsoft Partner with decades of proven experience.

Our Microsoft 365 Services

From our headquarters in Minneapolis, we'll develop a strategy that's uniquely tailored to meet your business needs. Atomic Data couples an arsenal of Microsoft know-how with high-touch, white glove service that allows you to get back to growing your business. We'll handle as much or as little as you need, with services including:

Microsoft
Partner

"[Atomic Data] walked us through the phases...they made it easy to simply execute the plan."

- IT Manager

- On-premises migration planning and implementation
- 24x7x365 always-live end-user support
- Microsoft Entra ID setup and management
- Microsoft InTune deployment
- User management (on and offboarding)
- Change management
- SharePoint development and customization
- Configuration hardening
- Data-loss prevention handling
- MFA and SSO integrations
- Endpoint security
- Microsoft 365 Backup as a Service
- License management
- And much more

WHY MICROSOFT 365?

1. Save your company money

With a simple, monthly subscription to Microsoft 365, you're avoiding large pricetags for new software, IT, and on-premises servers for email, websites, and document storage.

2. Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Each additional license, adds business-critical technology on up to five workstations and five mobile devices.

3. Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

4. Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

5. Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

Key M365 Use Cases

Copilot AI

Next-gen AI to turn your words into the most powerful productivity tool on the planet. Now integrated into Word, Excel, PowerPoint, Outlook, and Teams.
