

Keep your endpoints on a supported release of Windows

Support for Windows 10 ended on October 14, 2025

Subscribe to Windows 365

Fastest path to Windows 11

- Step up to Windows 11 Enterprise without managing keys or deploying images.
- Access Windows 11 Cloud PCs from Windows 10 PCs.
- Receive ESUs at no extra cost.

Upgrade eligible PCs

Preserves hardware investments

- Use Microsoft Intune to discover which devices are eligible for Windows 11 Enterprise.
- Update using Windows Autopatch and Microsoft Intune.

Purchase new PCs

Best security and user experience

- Ship new PCs directly from suppliers to employees.
- Add devices to your environment with zero-touch deployment using Windows Autopilot and Microsoft Intune.

If you need more time

The Windows 10 Extended Security Update (ESU) program, an annual subscription service, will deliver critical and important security updates for up to three years past the end of support date. For Windows 365 Enterprise or Frontline devices, updates will be available at no cost.

The ESU program includes:

- Critical and important security updates only.
- Support for ESU activation, update installation, and regressions only.
- One-year minimum, three-year maximum commitment.
- Subscribing in Year Two or Year Three requires paying for preceding year(s).
- Base license: USD 61 per device for Year One.
- 25% discount for updating via Microsoft Intune or Windows Autopatch
