

AUTOMATION & DATA INTELLIGENCE

ATOMIC AGENTIC AI

Custom copilots, co-created with your team. Agentic AI solutions by Atomic Data bring people-first intelligence to systems and processes you rely on. Built in partnership with your team, these AI assistants understand workflows, speak your language, and take action. The result? Fewer bottlenecks, faster responses, and elevated service that keeps your team and clients happy.

Your Tireless Digital Teammate

Helping you find data, complete tasks, and automate processes

**Supercharge
Employee
Productivity**

- ✓ Eliminate repetitive tasks

Scale Client
Experience**

- ✓ Enable 24x7 and surge support
- ✓ Leap past mediocre chat bots
- ✓ Look up data and fill forms instantly

Delivering True ROI, Not Experimental Hype

Launch marketing campaigns in weeks not months

Reduce escalations up to 40%

Identify and eliminate errors and hidden losses

Automate procedure documentation

How it Works

1

AI Readiness Assessment

We work together to draw your blueprint for smart AI adoption, not experimentation.

2

Copilot Development

Using Microsoft Copilot Studio and the Power Platform, engineers build your agents.

3

Ongoing Partnership

We train your teams, tune the agents, build reports, provide support, and integrate as you grow.

Built with security-first on a trusted, enterprise ecosystem
